## THAT WAR "DECLARATION."

An Unfounded Rumor Afloat Here Last Evening.

The report current on the streets of Greensboro about four o'clock yesterday afternoon that "war had been declared by the Senate" probably emanated from the fact that at that hour Senator Mason was making a red hot speech in which he declared that he was in favor of war. The Telegram was besieged with inquiries as to the truth of the report, all of which we answered, giving the latest news by wire from the Union Associated Press.

Those who took time to think a moment and reflect that the Senate alone could not authorize the beginning of hostilities, but that the house also must concur, and in the event of a veto by the President that both branches must, by a two-thirds vote, pass the measure over his veto, did not listen for the booming of cannon last night.

There is a warm time in congress, however, and there is no telling how much longer the tension will hold out. It is liable to snap at any time and open the way for a declaration of war. In the meantime The Telegram will keep on printing the news as it happens.

## JOHN EVANS WILL HANG.

The Governor Will Not Again Extend Executive Clemency.

John Evans, the Rockingham rapist will hang for his crime next Friday.

The Council of State yesterday decided that the sentence of the court should no longer be interfered with.

It was the report of Mr. Sims, who made a very careful investigation of the new evidence, that settled the matter.

It was alleged that two negroes, Jim Peterkin and John Hines, who were in jail with Evans, overheard a conversation between Evans and Mr. O. H. Dockery, Jr., his attorney, in which the latter advised Evans not to testify that he passed the scene of the crime the morning it was committed.

Mr. Sims secretly investigated the report. He saw one of the negroes in jail at Rockingham and then went to Laurinburg and saw the other. They corroborated each other to Mr. Sims.

While the council was in session, Mr. O. H. Dockery, Jr., was accorded a hearing. He presented a number of affidavits tending to disprove the story of the negroes, and then presented one of his own denying absolutely the story in every particular.

These, however, were not sufficient to overcome the great mass of evidence piled up against the negro and day after tomorrow he is to die.—News and Observer.

## A Game Tomorrow.

The game of ball between the regulars and the colts, scheduled for this afternoon will be played tomorrow if the weather will permit.

Rain stopped the game with Augusta, then the weather cleared and the Richmond was to come to the Greensboro and today rain stopped the game. Verily baseball teams bring rain.

Tomorrow will be Greensboro's last chance to see the champions play ball this season and so let everybody hope for a fair day. The game will be a good one, for the men are anxious to get out once more after being cooped up in the hotel since Monday.

The two teams will line up in the order announced in yesterday's Telegram. Game will be called at 3:30.

## Address at Methodist Church.

Prof. Hamill arrived on the noon train today and will meet the Sunday school workers at four o'clock this afternoon at West Market street Methodist church. At eight o'clock tonight at the Methodist church he will address a union meeting. Be sure to go out to hear him. It is hoped the inclement weather will not lessen the attendance.

In speaking of Prof. Hamill's address last Monday in Durham, the Sun says: "Prof. Hamill's lectures were practical and suggestive to Sunday school workers. The attendance was good and all present felt greatly benefited. His work in Durham has been a real inspiration to the Christian workers and they all will be glad to welcome him to their midst again."

## "WILL BREAK ALL BOUNDS"

Threats to Spurn Executive Policy and Declare War

## SENATORS CALL ON PRESIDENT

Mr. McKinley Explains the Cause of the Delay—Expecting a Cablegram from Spain.

By Wire to THE TELEGRAM.

Washington, Mar. 30.—A conference of the utmost significance to the United States and Spain was held at the White House this morning. Ten or twelve or perhaps more prominent Senators visited the President after having held conferences among themselves to agree upon something definite in the Spanish affair to lay before the Executive.

The meeting was held in reality to counsel together and to determine whether peace or war should be the immediate policy of the government. The conferees were Senator Davis, chairman foreign relations committee; Senator Frye, of the same committee; Senators Hanna, Aldrich, Spooner and Borah.

The details of the conference are not made public, but it is settled on the authority of a participant in the meeting that the principal object is vigorous action, and if this is not done, the senators said that Congress would break all bounds, spurning the Executive policy and declare war against Spain.

The president explained the causes of the delay and said that he expected a cablegram momentarily which would form a practical conclusion of the agreement in the Cuban war.

Late in the conference efforts were made to devise a method for holding Congress from radical and independent action. The conference lasted until noon.

NO MESSAGE TODAY.

Washington, March 30.—Secretary Porter announced this morning that the president would not send a message to congress today. He explained that the president had decided to wait for a better feeling in congress and furthermore that he did not care to communicate with that body until he could present something more definite than merely to ask for a large appropriation to feed the starving Cubans.

## SENATE COMMITTEE IN SESSION.

Washington, March 30.—The senate committee on foreign affairs has been in session since nine o'clock this morning. Several members of the committee called on the president. The four resolutions introduced in the senate yesterday in behalf of Cuba were considered. It is impossible to predict the outcome.

## CONGRESS NOT WILLING.

Washington, Mar. 30.—The state department received a cablegram last night from Minister Woodford announcing that the Spanish government has decided to accept the offer made by the President that the Cubans purchase their land. It is not believed that either congress or the Cubans are willing to accept the proposition but if it is accepted congress declares that it does not eliminate the Maine situation.

## FAILED TO REACH AN AGREEMENT.

Washington, March 30.—The senate foreign relations committee failed to reach an agreement at the meeting today, referred the whole matter to the sub-committee and adjourned.

## BY PURCHASE.

Washington, March 30.—Secretary Day declares that Spain has definitely accepted the offer of the United States to secure the independence of Cuba by purchase.

## REED RULE IN HOUSE.

Washington, March 30.—Congressman Bailey introduced a resolution in the house declaring for the immediate independence of Cuba and demanding immediate consideration claiming the privilege of motion. Republicans opposed and defeated the claim. Reed ruled the resolution not in order; Bailey appealed to the house for decision and the appeal was tabled.

## SPAIN ASKS FOR TIME.

Washington, March 30.—Spain asks until tomorrow to reply to the proposition of the United States for a settlement of the Cuban question on the basis of armistice. Spain asks if the independence of Cuba is a condition of the proposition, to which Mr. McKinley replies, "Yes." Bailey's demand was defeated in the house by a party vote.

## ASKING FOR REPORTS.

Washington, March 30.—Senator Frye has introduced a resolution calling for consular reports re-

lating to conduct of the war in Cuba, the condition of the people and other matters and asks its consideration tomorrow.

## INTENSE EXCITEMENT.

Washington, March 30.—Feverish interest in the Cuban question was evidenced this morning by a long line of spectators who had been waiting since daylight for admission to the capitol. Today's developments and the action of the executive branch of the government within the next twenty-four hours are eagerly awaited. The president is confronted with the necessity of immediately adopting a definite policy or losing control of the situation by its being turned over to congress. There is great excitement in the navy department on account of the report of the receipt of a cablegram from Madrid announcing the arrival this morning from Carthage of the cruisers Mariathereffa, Christobal Colon, one of the most powerful ships in the Spanish navy and a large torpedo boat destroyer. The destination of these ships is not known.

## STOPPED ALL TELEGRAMS.

A "Circuitous Route" Message Received in London.

## WOODFORD'S NOTE A REHASH.

Some News and Some Opinions Regarding the Seemingly Pending Crisis.

By Cable to THE TELEGRAM.

London, Mar. 30.—Intense excitement is reported in Spain. The press censor has stopped all telegrams. A message received by a circuitous route says: "The interview today between Minister Woodford and Senor Sagasta on the Cuban question and the Maine explosion is the chief topic discussed. Woodford's plan is practically an ultimatum. Sagasta gains time by not seeing the queen until tomorrow."

The extraordinary nature of the situation is shown by the fact that both the United States and Spain have thrown aside all forms of diplomatic etiquette and have taken sensational steps to direct personal negotiations between Minister Woodford and the Prime Minister.

## A MERE REHASH.

By Cable to THE TELEGRAM.

Madrid, Mar. 30.—The Spanish officials say that Minister Woodford's note of yesterday is merely a rehash of what he expressed on March 23d, expressing President McKinley's views on the Maine disaster and the question of relief for the Cubans.

## Honors to the Dead Soldier.

Pittsburg, March 30.—The body of Lieutenant Jenkins arrived here this morning and was taken to Sampson's mortuary. ## Short in His Accounts.

By Wire to THE TELEGRAM.

New York, Mar. 30.—Former Chief Clerk Billings, of the Adams Express Company was arrested today. He is charged with being short in his accounts.

## Time To Act.

The Journal has never clamored for war with Spain. Jingoism is not one of the Journal's traits. This paper has steadfastly held to a policy of patience, trusting the president and congress to get the facts and act intelligently, and to preserve peace if consistent with the national honor. If that cannot be done we must have war, as a matter of course.

But the Journal believes that the time has arrived for action. There is no reason for a continuance of the suspense in which the nation has been held for the past 60 days. President McKinley should make known his policy, and that at once. There is nothing to be gained by temporizing and much to be lost. Let the country know what to expect.—Atlanta Journal.

## It's Different, You Know.

It was just after war had been declared, and the quiet old man saw the noisy one sneaking away from an excited crowd.

"What's the matter?" asked the quiet man.

"They're discussing the war," replied the noisy one.

"Well, you've been yelling for war for the last two months, haven't you?" demanded the quiet man.

"Of course I have," returned the noisy one, "but, hang it all! these people are talking about enlisting."—Chicago Post.

## Stars and Stripes Hoisted.

This is Senator Mason's Belligerent Reference to Spain.

Lacrosse, Wis., March 29.—Dr. George E. Powell, who accepted the challenge issued to Senator Mason by Buron Elcardo, a Spanish editor, has received the following letter from Senator Mason:

"Dear doctor: I thank you for your magnificent letter and the spirit of patriotism it shows. I must decline to let you fight for me. Let's clean out the whole nation and move them off the continent. I enclose a letter from a young man of Dayton, O., who wants to take your place.

Very truly yours,  
"William E. Mason."

Mr. C. M. Vansly had his little girl's eyes examined in Baltimore last year and went with the prescription to one of the largest and best known optical houses there to have the glasses made up. He saw at a glance that neither lens accorded with the prescription, and so changed them both. Mr. Vansly sent the old lenses with an explanation to the oculist who had given the prescription and in reply received the following:

QUART BOTTLES.  
This great blood pur-

diseases by removing from the system, the conditions which produce  
them. It expels all poison and impurity from the blood. It acts upon  
the nerves as a stimulant, particularly upon those nerves belonging to the  
great organs of the body; therefore, it causes the heart to beat with  
greater force, the lungs to take in more oxygen and to expel more car-  
bonic acid; it induces the kidneys to send off more of the poisonous ex-  
cretions from the blood; the bowels to have more regularity and health-  
fulness in their action; the sweat glands to throw out more impurities.  
Our illustrated book of 36 pages will tell you what is the matter and what to do. Its  
free for the asking. Quart bottle, \$1.00.

## THE COUNTRY WANTS WAR.

Mass Meetings Held Throughout  
Many States Demand It.

New York, March 29—Dispatches  
received tonight, from many of the  
large cities throughout the country,  
state that the indignation of the peo-  
ple over McKinley's reputed surrender  
to Spain, has found expression today  
and tonight in denunciatory resolu-  
tions passed by various public bod-  
ies, boards of trade and at mass-meet-  
ings of the people.

The immediate evacuation of Cuba,  
on the penalty of a war with the United  
States, was the burden of most of  
the resolutions. Messages were sent  
to Congressmen and Senators, de-  
manding instant action, to force Spain  
to get out of Cuba or to fight Uncle  
Sam.

The big mass-meeting in New York  
was presided over by Gen. Dan Sick-  
les.

## General News in a Nutshell.

In the highest circles in New York  
the young women speak of "Mrs. As-  
tor," with a long, lingering stop on  
the first syllable and a sweet London  
Fifth avenue drawl.

According to recent statistical re-  
turns, the total number of women over  
the age of 18 employed in factories  
and workshops in the British Isles is  
a little over a million, of which about  
11 per cent. belong to trades unions.

One of the series of Omaha exposi-  
tion stamps is to bear the picture of  
Pere Marquette and will show him  
with a smooth face. This, it is said,  
will be inaccurate, all historical evi-  
dence going to show that he wore a  
full beard.

The mayor and one of the aldermen  
of Florence, Ala., were arrested one  
night last week for violating an ordi-  
nance in riding their bicycles after  
dark with unlighted lamps. They were  
taken to the mayor's office, but that  
official could not sit on his own case,  
and the prosecution was halted until  
an officer having jurisdiction could be  
found.

A Polish workman employed in a  
Wilmington (Del.) shop ventured on  
Saturday last to express the opinion  
that the Spanish navy is stronger  
than that of the United States. A  
dozen companies thereupon compelled  
him, under threat of bodily injury, to  
wave an American flag and to cheer  
for our navy. The proceeding on the  
part of the dozen against the one was  
expressive of what a great many peo-  
ple nowadays call "patriotism;" but  
it was not calculated to fill the breast  
of the foreigner with love for the flag  
he waved.

A New York woman has such a fear  
of burglars that she recently invented  
a strong padlock of complicated design  
to keep them out of her house. Two  
thieves picked the lock with a hairpin  
on Saturday night last, and were get-  
ting their booty together when the  
timid woman discovered them. She  
thrashed the two, chased them from  
the house and followed them until a  
policeman was found to arrest them.

England has an absolute statute  
prohibitive of the use of the Irish pre-  
fixes "O" and "Mac." An effort is  
now being made in Parliament to se-  
cure the repeal of this act, so that  
persons of Irish descent may use the  
prefixes before their names at pleas-  
ure, and without feeling that they are  
violating even a dead letter law. The  
movement emanated from a Mr. Mac  
Aleese.

Edmund Tattersall, the head of the  
noted firm of horse dealers, who died  
a couple of weeks ago, came from one  
of the oldest Lancashire yeoman fami-  
lies. In the time of Cromwell they  
were fighters on the side of the King.

A valuable water proof and trans-  
parent cement for glass has been dis-  
covered by a German chemist, Prof.  
H. H. Schwartz, in a mixture of five  
parts of a moderately thick gelatine  
solution with one part of potassium  
chromate.

Kaiser Wilhelm has made another  
unpopular move in his decision to  
move the University of Berlin and the  
National library from their present  
site to the suburb of Charlottenburg.  
He wants to use the buildings as pal-  
aces for his sons.

Carroll D. Wright, in an investiga-  
tion into the employment of women in  
professional and business life, says  
there need be no alarm as to the en-  
croachment of women upon the occu-  
pations held by men, for, on the  
whole, such trespass is slight.

**Bicycle Ordinance.**  
At a meeting of the board of alder-  
men held on the 25th of March, 1898,  
the following ordinance was passed:

Be it ordained by the board of al-  
dermen of the city of Greensboro,  
N. C., that it shall be unlawful for  
any person to ride a bicycle on the

### SMALL MANUFACTORIES.

#### A Suggestion as to an Inducement to Secure Them.

The Telegram has often and perhaps rather persistently called attention to the growing need of the city of Greensboro—a larger and more diversified line of manufacturing enterprises. And in this connection we have also declared that we would rather see a large number of small manufacturing establishments than just a few larger ones.

Why? Well, there are several reasons apparent to all who take the time to study the matter carefully. More branches of trade can be reached and more varied will be the line of products and each line will be a separate and distinct advertisement for Greensboro.

But the purpose of this article is to make a suggestion as to one of the best means of securing this kind of enterprises. We are reliably informed that there is a demand for room with power furnished for small manufacturing enterprises here and our suggestion is this:

Let some of our capitalists investigate the matter and determine whether or not it would be a good investment to put up a large building divided into apartments adapted to the needs of small manufacturing enterprises with power attached for rent.

There is now an advertisement in this paper for "a light room with power for light manufacturing." It appears to this writer that the idea is a practical one. Let it be considered by practical men. It would be a good thing for the town, and would, we believe, be a paying investment to its projectors and owners.

### Tomorrow Night.

The Savannah Morning News of March 11th has the following to say of the Private Secretary, the famous comedy success which will be presented at the Academy of Music tomorrow night by the gifted comedian Edwin Travers and his admirable company:

William Gillette's "The Private Secretary" was given at the theater last night to a large audience. The Private Secretary has been seen often in Savannah. It is Mr. Gillette's best play and ranks among comedies as the same author's "Secret Service" does among war dramas.

Mr. Edwin Travers was seen as "Douglass Catermole," the wild nephew, who wanted to sow wild oats to please his uncle, but has not any "seed." Mr. Travers is a natural actor of pleasing appearance and gave an excellent portrayal of his part.

Mr. Charles Barrington was superb as the "Private Secretary," whose "do you know" is so familiar to most theater-goers. Mr. F. K. Wallace as the eccentric uncle; Mr. Revel Germain, as "Gibson," the tailor, Mr. Dean Raymond, as "Douglass friend" and Mr. W. M. Cooley as an English gentleman, all played their parts acceptably.

Miss Maud Cooling, Miss Norma Hyatt, Miss Alice Barrington and Miss Marie Allcott were the ladies in the company, all of whom were excellent in their roles.

### EDITORIAL.

A student plied a college professor with a series of questions to each of which the professor laconically replied "I don't know."

"Why," finally said the student, "I thought we were sent here for you to tell us what we don't know."

"Young man," replied the professor you are sent here for us to tell you what we know, and that is soon done. To tell you what you don't know would be an endless undertaking.

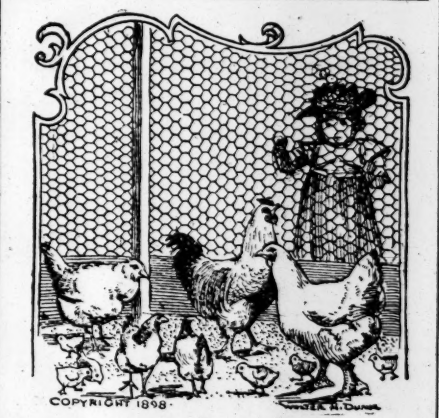

It is somewhat that way in writing advertisements, we can soon tell you what we know, or can think of, that will interest you; but if you should come down and look through you will find an endless variety of useful articles that you had no idea that we kept in stock.

Did you see the exhibit of the Universal Food Chopper a few days ago? It is a most wonderful machine. It will do as many things as a magician can perform tricks. You would be surprised to see the tricks it will do. It chops beefsteak, grinds coffee, crackers, and in fact anything you can get in it, except horse shoes, lamp chimneys and the like.

### SMALL MANUFACTORIES.

**A Suggestion as to an Inducement to Secure Them.**

The Telegram has often and perhaps rather persistently called attention to the growing need of the city of Greensboro—a larger and more diversified line of manufacturing enterprises. And in this connection we have also declared that we would rather see a large number of small manufactories established than just a few larger ones.

Why? Well, there are several reasons apparent to all who take the time to study the matter carefully. More branches of trade can be reached and more varied will be the line of products and each line will be a separate and distinct advertisement for Greensboro.

But the purpose of this article is to make a suggestion as to one of the best means of securing this kind of enterprises. We are reliably informed that there is a demand for room with power furnished for small manufactories here and our suggestion is this:

Let some of our capitalists investigate the matter and determine whether or not it would be a good investment to put up a large building divided into apartments adapted to the needs of small manufacturing enterprises with power attached for rent.

There is now an advertisement in this paper for "a light room with power for light manufacturing." It appears to this writer that the idea is a practical one. Let it be considered by practical men. It would be a good thing for the town, and would, we believe, be a paying investment to its projectors and owners.

### Tomorrow Night.

The Savannah Morning News of March 11th has the following to say of the Private Secretary, the famous comedy success which will be presented at the Academy of Music tomorrow night by the gifted comedian Edwin Travers and his admirable company:

William Gillette's "The Private Secretary" was given at the theater last night to a large audience. The Private Secretary has been seen often in Savannah. It is Mr. Gillette's best play and ranks among comedies as the same author's "Secret Service" does among war dramas.

Mr. Edwin Travers was seen as "Douglass Cattermole," the wild nephew, who wanted to sow wild oats to please his uncle, but has not any "seed." Mr. Travers is a natural actor of pleasing appearance and gave an excellent portrayal of his part.

Mr. Charles Barrington was superb as the "Private Secretary," whose "do you know" is so familiar to most theater-goers. Mr. F. K. Wallace as the eccentric uncle; Mr. Revel Germain, as "Gibson," the tailor, Mr. Dean Raymond, as "Douglass friend" and Mr. W. M. Cooley as an English gentleman, all played their parts acceptably.

Miss Maud Cooling, Miss Norma Hyatt, Miss Alice Barrington and Miss Marie Alcott were the ladies in the company, all of whom were excellent in their roles.

### EDITORIAL.

A student plied a college professor with a series of questions to each of which the professor laconically replied "I don't know."

"Why," finally said the student, "I thought we were sent here for you to tell us what we don't know."

"Young man," replied the professor you are sent here for us to tell you what we know, and that is soon done. To tell you what you don't know would be an endless undertaking.

It is somewhat that way in writing advertisements, we can soon tell you what we know, or can think of, that will interest you; but if you should come down and look through you will find an endless variety of useful articles that you had no idea that we kept in stock.

Did you see the exhibit of the Universal Food Chopper a few days ago? It is a most wonderful machine. It will do as many things as a magician can perform tricks. You would be surprised to see the tricks it will do. It chops beefsteak, grinds coffee, crackers, and in fact anything you can get in it, except horse shoes, lamp chimneys and the like.
